PROJECTS

MUSIC CONCERT WEBSITE Feb 2024

Live | Github

- I made a music event website with ReactJS (HTML, CSS, JavaScript, Bootstrap, and jQuery).
- Its sections include home, events, contact, login, and sign-in. It teaches me about ReactJS, HTML, CSS, JavaScript, Bootstrap, and jQuery.

MY PORTFOLIO Dec 2023

Live | Github

- I designed a portfolio using HTML, CSS, and JavaScript.
- It has sections such as home, about, skills, projects, and contacts. It allows me to promote my initiatives and expertise.

XPLORE IT CORP WEBSITE CLONE Nov 2023

Live | Github

- Using HTML and CSS, I redesigned the Xplore IT Corp website.
- It has sections for home, courses, batches, team, services, and contacting us. It is useful for me to learn how to recreate the original website.
