Profile Summary

A competent and self motivated individual with a passion to learn and appreciate anything innovative. An efficient team player with strong interpersonal, time management and problem solving skills. A process based thinker with an eye for quality.

Projects

My Portfolio

Technology used: HTML, CSS and JavaScript

- I designed a portfolio using HTML, CSS, and JavaScript. It has sections such as home, about, skills, projects, and contacts. It allows me to promote my initiatives and expertise.

Xplore IT Corp Website Clone

Technology used: HTML and CSS

- Using HTML and CSS, I redesigned the Xplore IT Corp website. It has sections for home, courses, batches, team, services, and contacting us. It is useful for me to learn how to recreate the original website.

NFT Marketplace using Blockchain Technology

Technology used: ReactJs and Blockchain

- Created a website for buying, selling, and trading NFTs. Using blockchain technology, users may purchase, sell, and trade unique digital assets securely. Our job includes designing and developing the website, as well as integrating a payment system and developing a user-friendly interface.

Skills

Soft Skills: Communication, Adaptability, Time Management, Creativity and Team Player.

Technical Skills: C, HTML, CSS, JavaScript and ReactJS.

Tools: VS Code, GitHub and Vercel (Hosting).

Certification

Web Technology

Xplore IT Corp - Coimbatore, Tamil Nadu.
